Telencephalon regions: rCMRGlc vs neuronal supercluster proportion

Amygdala excitatory — rho = −0.66, P = 0.018
Cerebellar inhibitory — rho = −0.36, P = 0.255
CGE interneuron — rho = 0.02, P = 0.957
Deep−layer corticothalamic and 6b — rho = 0.07, P = 0.837
Deep−layer intratelencephalic — rho = 0.16, P = 0.625
Deep−layer near−projecting — rho = 0.12, P = 0.719
Eccentric medium spiny neuron — rho = −0.63, P = 0.027
Hippocampal CA1−3 — rho = −0.46, P = 0.132
Hippocampal CA4 — rho = −0.52, P = 0.082
Hippocampal dentate gyrus — rho = −0.05, P = 0.887
LAMP5−LHX6 and Chandelier — rho = −0.19, P = 0.549
Lower rhombic lip — rho = −0.42, P = 0.178
Mammillary body — rho = 0.22, P = 0.495
Medium spiny neuron — rho = −0.19, P = 0.548
MGE interneuron — rho = 0.23, P = 0.470
Midbrain−derived inhibitory — rho = −0.73, P = 0.007
Miscellaneous — rho = −0.31, P = 0.332
Splatter — rho = −0.70, P = 0.012
Thalamic excitatory — rho = −0.56, P = 0.057
Upper rhombic lip — rho = −0.60, P = 0.039
Upper−layer intratelencephalic — rho = 0.11, P = 0.737

rCMRGlc (µmol/100 g/min.)

Cell−type proportion

Region
- Basal forebrain
- Caudatum
- Corpus amygdaloideum
- Frontal lobe
- Hippocampus
- Insular lobe
- Nucleus accumbens
- Occipital lobe
- Pallidum
- Parietal lobe
- Putamen
- Temporal lobe
