Residual concordance across a priori network edges
Positive values mean both connected regions deviate in the same
Mesencephalon −− Cerebellum
Pallidum −− Nucleus subthalamicus Luysi
Capsula interna −− Pallidum
Corpus geniculatum laterale −− Area striata grey
Amygdala −− Insular cortex (grey)
Amygdala −− Hippocampus
Mesencephalon −− Pallidum
Striatum −− Pallidum
Mesencephalon −− Nucleus subthalamicus Luysi
Capsula interna −− Striatum
Striatum −− Nucleus subthalamicus Luysi
Hippocampus −− Insular cortex (grey)
−1
0
Product of standardized metabolic−model residuals
